

Back to School Logic Puzzle

It is the first day of school and Emma, Bruce, Rebecca and Stacey are very excited. Each child is wearing a different colour backpack and is entering a different grade.

Using the clues below can you determine which grade each child is entering and what colour backpack each child wore.

Stacey, who was not the oldest, wore the purple backpack.

The girl who was in grade 5 did not like the colour green.

Rebecca is three years older than the girl in Kindergarten and did not wear the black backpack.

The child that is going into grade 4 did not wear the backpack that was a primary colour, unlike Emma.

	K	3	4	5	Black	Blue	Green	Purple
Bruce								
Emma								
Rebecca								
Stacey								
Black								
Blue								
Green								
Purple
